

2012 NASPP | 20th Annual Conference October 8 - 11, 2012

Special Early Bird Rate: As a “thank you” to members we are offering a special rate if you register by May 31. This year’s Conference will be key to meeting the complex new challenges we face as compensation practices change dramatically in response to Dodd-Frank—and “Say-on-Pay.”

“20th Annual NASPP Conference”

Another crazy season of Say-on-Pay votes, as well as ever-increasing shareholder and media scrutiny, will dramatically impact pay practices. Expect landmark changes in the coming year for executive compensation, stock plan administration, and disclosure—that will impact every public company. Building on two decades as the premier event for stock plan professionals, the NASPP Conference is the unquestioned leader in providing critical guidance to all those involved with any role in design, oversight, administration, and disclosure of stock and executive compensation.

This is the one Conference you cannot afford to miss.

Bonus: “The Say-on-Pay Workshop: 9th Annual Executive Compensation Conference” at No Extra Cost!

Say-on-Pay has put executive compensation in the cross-hairs like never before. This critical “9th Annual Executive Compensation Conference” led by the nation’s top authorities—and included at no extra charge—will provide the latest up-to-the-moment guidance that you need to make sure your executive pay passes muster with shareholders.

“Tackling Your 2013 Compensation Disclosures: The 7th Annual Proxy Disclosure Conference”

Do not head into the 2013 proxy season unprepared. This critical Conference will be a “must” for anyone who has any role in setting/approving compensation or the preparation or review of proxy statements, particularly for small companies, which will face Say-on-Pay for the first time.

NEW—“Advanced Issues in Restricted Stock”

As more companies implement restricted stock and units on a broader basis, unique challenges continue to emerge. This program will go beyond the basics to offer practical solutions to the difficult issues companies are grappling with today.

In short, this Conference will be Critical for Every Public Company.
